IN CASE AGAINST
R. A. PETTINGILL****Is Second Trial Granted As
Defendant Was Unable
To Reach U. S.****CASE OF BORROWING****Trial Takes Place at County
Seat in Truck-Car
Collision Case**

DOYLESTOWN, Oct. 16.—Deliberating about 40 minutes a jury in Civil Court Monday before President Judge Hiram H. Keller returned a verdict of \$6,675 in favor of the plaintiff, Mrs. Ethel Burnham Lamb Pettengill, of Adrian, Mich., and against the defendant, Russell A. Pettengill, of New Hope. It was a second trial and a second verdict for the plaintiff.

The trial was the second in the case of the plaintiff, now the divorced wife of the defendant, who claims the defendant borrowed \$5,000 from her while they were married in 1939.

On October 15, 1946, a jury rendered a verdict of \$6,389.92 in favor of the plaintiff, Mrs. Lamb Pettengill. At that time the defendant was not able to attend the trial because he was in Bermuda and unable to arrange for transportation to be present when his case went to trial here before President Judge Keller. For various reasons a second trial was granted.

Mrs. Lamb Pettengill, who made the trip by train East to attend Monday's trial, testified that her husband borrowed \$2500 from her on February 12, 1942, and again on March 12, 1942.

She testified that for the first \$2500 he scribbled a date and notation of the amount on a scratch pad note but that she was never able to find the piece of paper.

Two cancelled checks, which the plaintiff gave to her husband, were introduced as evidence. She further testified that the plaintiff wanted \$10,000 but that upon the advice of her father she only let him have \$5,000. "I was a little horrified at his asking me for money," said the smartly dressed former wife of the defendant.

The plaintiff and defendant were married in New York, November, 1939. They honeymooned in Bermuda, where the defendant took a cropper in a real estate deal in which he finally lost \$32,000.

They were divorced in February, 1943.

The defendant, Russell A. Pettengill, New Hope, New York, Cape Cod, was not present.

Langhorne Players To Stage "Boy Meets Girl"

Due to the enthusiastic acclaim by the audience to the initial production of The Langhorne Players Group, "George Washington Slept Here," it has been decided to run the fall production, "Boy Meets Girl," on two successive evenings.

This is to give all of those who expressed disappointment in not being able to attend last year's play because of business commitments on Friday evenings, an opportunity to attend on another evening. This, however, will necessitate a change of locale and The Yardley Theatre has been selected for the evenings of November 21st and 22nd.

The Players group wishes to extend an invitation to anyone who might be interested in amateur dramatics, either in taking an actual part or in assisting in the preparation of stage settings and props. Interested parties may call Langhorne 2888 for information.

**Elect Officers at Final
Meeting of Science Ass'n**

NEWTOWN, Oct. 16.—The last of the meetings for the season was conducted by Bucks County Natural Science Association on Saturday. Forty-five members gathered in the auditorium of Council Rock high school for the program, which included election.

Results of the election of officers were as follows: President, Stevenson W. Fletcher, Jr.; first vice-president, John T. Carson; second vice-president, William J. Ellis; third vice-president, Stephen R. Chrym; secretary, Miss Julia Balderston; and treasurer, Miss Olive Balderston.

Mrs. Mary W. Peters and Miss Margaret J. Styer were appointed to represent the association at meetings of the Delaware Valley Naturalists' Union, and Mrs. William R. Stuckert was designated to arrange the programs.

The first speaker was Robert Strouble, who spoke of the erosion problems of the Brandywine creek, which, he said, has its beginning in the Welsh mountain in Chester valley, Chester county.

Butchered woodlots, poor pasture, muddled streams and gullied fields, it was said, make waste, and less nutritious food on such farms.

Mr. Strouble strongly recommended strip and contour farming, and the building of many small dams to prevent the erosion of soil. He also cited industries situated on the banks of the Brandywine which have been cooperating in keeping the water free from pollution, and showed several pictures of soil conservation methods.

The second speaker was Henry T. Skinner, of the Morris Arboretum, Chestnut Hill, who took as his subject, "Unusual Fall Colorings and Fruits." By means of slides Mr. Skinner described the trees at the arboretum as they appear at this time of the year.

A SUMMARY OF THE NEWS

"Be on your guard . . . against the insistent propaganda that ascribes an evil motive to even any generous act, duplicity to simple honesty and intentions of world domination when all we want is world peace and an end to human suffering." Secretary of State Marshall warned yesterday.

In San Francisco the AFL convention refused to accept a challenge by John L. Lewis for an all-out jurisdictional battle over charges of raiding by his District 50 mineworkers "catch-all" union.

Congress committees holding hearings on the food crisis have learned that farmers oppose vast aid to Europe, but opposition is tempered by the prospect of high prices and a humane feeling that hunger must be alleviated.

This country moved again to give quick, practical aid to France. President Truman authorized the Army to buy \$50,000,000 worth of francs pending settlement of a French claim against the United States.

A wave of new strikes actively supported by the Communists swept over France.

**ADVENTURERS TO BRING
"ROBIN HOOD" TO LIFE****Lovable Rogue of Sherwood
Forest and Cohorts Are
Coming to Bristol****OCT. 25TH AT GRAND**

Though Robin Hood and his merry band were rated high in song and legend as an extremely hardy and adventurous crew, the seasoned troupers of the famous Clare Tree Major Children's Theatre who will impersonate the lovable rogue and his cohorts of Sherwood Forest at the Grand Theatre on Saturday, October 25th, at 10 a. m., can do so without the slightest embarrassment. For the players themselves are a hardy lot of adventurers who daily encounter and overcome obstacles which the 12th century Robin never dreamed of.

In the task of bringing stage versions of the famous children's classics to 1,500,000 children annually, the seven companies of this organization cover over 300,000 miles by truck and car.

To ordinary mortals, a snow covered mountain pass high in the Rocky Mountains, coupled with a stern warning from the state highway patrol that traffic may proceed only with risk, would provide sufficient excuse to delay their journey until nature was in a more kindly mood. But not these worthy descendants of thespian royalty. If there is a path open wide enough to allow the truck load of scenery and costumes to squeeze through, off they go, the car-load of actors close behind, creeping up the icy road towards the clouds, leaving astonished stay-behinds to wonder why on earth they do it.

The bewilderment of the uninitiated is quite natural. For they have no way of knowing that the actors are spurred on by the fact that on the other side of that mountain, a group of several hundred children are waiting, with the almost painful eagerness of the very young for the great annual event they have been anticipating for months before. And the actors, with the sensitive imagination which is an integral part of their talent, know the utter desolation that disappointment would

bring. **Continued on Page Two**

**Lichtenwalter Resigns
As Speaker of House**

HARRISBURG, Oct. 16.—Closing a brilliant career as a State lawmaker, Franklin H. Lichtenwalter Tuesday resigned as Speaker of the House of Representatives to assume his new post as the Representative in Congress from Pennsylvania's Bucks-Lehigh district.

Lichtenwalter's election last month, to fill the Congressional vacancy created by the death of Representative Charles L. Gerlach, attracted nation-wide attention.

His Democratic opponent, Phil H. Storch, Allentown newspaperman, was supported principally by the CIO and other organized labor, which made the Taft-Hartley Labor Law the main issue in the campaign.

Lichtenwalter trounced Storch, piling up a majority in excess of 17,000, the greatest in the history of the district.

Representative Herbert P. Sorg, 35-year-old Republican floor leader, who teamed with Lichtenwalter in directing GOP policies in the House at this year's session, automatically will become acting Speaker of the House.

Lichtenwalter's last official duty as Speaker was to preside at ceremonies at which three new members of the House took their seats this afternoon.

The new Representatives are Herman H. Yaffe (R.), of 2149 E. Cumberland st., Philadelphia, representing the 27th District; James J. McAleer (R.), of 2124 Mifflin st., Philadelphia, representing the 5th District; and Mrs. Marion Munley (D.), of Archbald, representing Lackawanna county's 5th District.

All were chosen at special elections Sept. 9 to fill vacancies. Yaffe succeeds the late Harry C. Schlect, McAleer replaces the late Peter J. Campbell, and Mrs. Munley takes the place of her late husband, Robert W. Munley.

Bristol motorists are having their lives endangered by vandals who are taking hub caps and removing bolts from wheels of the cars.

This week a Radcliffe street woman made a trip to Trenton in her car, and upon returning visited a local garage to have a hub cap placed and tires checked. The attendant informed the customer he had noticed that the cap was missing Sunday when she passed him. As he was carrying out his task he noticed that three bolts were missing and two others loosened on the wheel. Thinking of her trip to Trenton, he remarked: "It's a miracle you weren't killed."

A Cedar street man had a similar experience recently. Three of his hub caps were stolen, and some of the bolts loosened.

The two automobiles in question are the same type of cars, Plymouths.

EASY DEBT—HARD PAY

Economically, the postwar era is following the pattern etched by history in all its facets. People not only take in more money in inflationary times but they borrow more. Personal indebtedness is increasing rapidly in this country, which portends trouble when price and wage trends turn lower.

Personal indebtedness, as represented by home and farm mortgages, consumer credit and life insurance policy loans, totalled \$40,700,000,000 in 1929. Everybody remembers how difficult it was for most people to pay those debts after the crash. In many cases it was impossible.

Depression liquidation, followed by high war income, had carried personal indebtedness down to \$32,700,000,000 in 1944. But the total stands today at \$45,000,000,000, an all-time high.

Urban home mortgages have increased 38 per cent in three years. There is little change in farm mortgages because of high farm income. People are wary of increasing their loans against life insurance policies, too. But consumer credits have doubled since 1944.

It is not to be forgotten that these debts are incurred by borrowing cheap money—a dollar worth 50 cents or less. Should the dollar regain a purchasing power of 75 cents in the not distant future, it will be hard to earn repayment dollars. Every American had this lesson impressed upon him in the 1930s.

But perhaps this era will be the exception that proves the adage that what goes up must come down. Perhaps prosperity, this time, will be permanent. Perhaps there will be no more depressions. Perhaps.

Now that he has gone all this time without rain the weather man might as well go ahead and see how long it will be before everything goes to staves or starts leaking.

Wisconsin thieves are charged with stealing cars direct from assembly lines. That's one way of beating used car dealers to 'em.

Russia is organizing satellite nations in a movement against the United States—a pretty compliment to a country presumed to be decadent.

The new styles should make it easier for a man to hide behind his wife's skirts.

Favor Plaintiff in Case Against R. A. Pettingill

Continued from Page One
Cod and Bermuda real estate man, revealed that their marriage came to the "crossroads in less than a year."

The former Mrs. Pettingill knew that the \$10,000 was a sort of partnership arrangement. I planned to convert an old house into three apartments and make some money, but instead of it costing me \$20,000 it ran into \$32,000 and I lost everything eventually."

The defendant denied that he ever asked his former wife to pay his bills.

When the jury returned the verdict they failed to calculate the interest on \$5,000 for five years and seven months, which amounted to \$1675, and President Judge Keller directed that they return and bring in a complete verdict which amounted to \$6,675.

Claiming damages amounting to \$788.38 for a tractor-trailer, which was damaged in a truck-car collision, the trial of E. Brooke Matlack, a partnership of Ithaca, Delaware county, versus Harry Nicholas, 500 Juniper street, Quakertown, began late Monday afternoon before President Judge Keller.

The trial grows out of a tractor-trailer—automobile collision on Route 309, north of Quakertown, February 8, 1945, when the tractor-trailer was operated by Vincent Williams, of Bethlehem, and the car was driven by the defendant, Harry Nicholas.

The plaintiffs are Duverney, E. Brooke, Robert W. Edwin L. and E. Brooke Matlack, Jr. Maurice M. Green, a member of the Philadelphia Bar Association is assisting I. Louis Rubin as counsel for the plaintiffs.

Vincent Williams, of Bethlehem, who was operating the tractor-trailer which was hauling 6,000 gallons of fuel oil to Bethlehem Steel Plant, testified that the defendant's car turned across the highway, from the lane on the right hand side to the middle lane, to make a left-hand turn into a driveway, causing the crash.

"The road was very icy and I swung to the right in order to avoid hitting him on the side and the tractor-trailer jackknifed, causing the trailer to swing around and crash into the tractor demolishing it," said the plaintiff's witness.

Resuming the trial Tuesday, Walter F. Spitzer, a truck driver who arrived at the scene of the crash, testified he was following Williams' truck.

"I was going 25 or 30 miles an hour at that time," said Spitzer, whose truck was hauling 4500 gallons of fuel oil.

"It was a freezing drizzle and there was snow and sleet on the road."

Because a witness, Vincent Williams, for the plaintiff failed to appear in court this morning, a ten minute recess was granted by the Court.

There was no disposition at 11:30 this morning.

**Scout Finance Campaign
May Be "Most Successful"**

The first concrete evidence that friends of Scouting in Bucks County will make the 1947-48 finance campaign the most successful ever, came from lower Bucks district, Tuesday, as Sheridan B. Metz reported more money in hand already in that district than was contributed last year.

Meanwhile, the campaign for "6200 Friends of Scouting" in Bucks County is continuing, following an announcement last week that it would be extended.

\$3051, as compared to \$2904 last year, placed Lower Bucks ahead of all other districts and even ahead of itself.

Lenape District, still short of last year's mark, placed second after four weeks of the campaign, with \$1857.45. Delaware Valley, which last year gave a third of all funds raised by the council, stood third, with \$1265.

These figures were announced with the realization that many fruitful areas are not yet ready to report in the drive for a final goal 30 per cent greater than the 1946-47 campaign objective.

Other reports by districts follow: Tohickon, \$875; West Bucks, \$845; Perkiomen, \$469; and Delaware River, \$384.

SANTA'S TOYLAND OPENING

DEAR BRISTOL PEOPLE:

THANKS SO MUCH FOR THE WAY YOU CAME TO THE OPENING OF MY TOYLAND. At least 2,000 of you came down the hill from Mill street and directly from the borough parking lot to see my newly-enlarged and remodeled Toyland. I heard, too, the words of praise about how nice I have fixed up this old building, and your surprise at my many toys. I know that you and your children got a "kick" from my running train display, and I want to tell you that you are most welcome to come in at any time and enjoy the trains some more. No doubt some of these trains will run right into your home.

I'LL BE BACK — AND WITH MORE LOLLYPOPS — ABOUT NOVEMBER 1ST.
TELL ALL THE KIDS!

Most Respectfully,

SANTA.

Today's Quiet Moment

By The

O most merciful Father, give us today a ready will to do unto others as we would have them do unto us. May we give ourselves unselfishly for the good of all Thy children, whoever and wherever they may be. Teach us ever to bear in mind that for our good Thou didst give Thine only begotten Son, that by Him and through Him we may have eternal life. In His name and for His sake we ask it, Amen.

RECIPES

Codfish Cakes

2 cups flaked salt codfish
4 cups pared, diced, raw potatoes (about 4 medium)
2 slightly beaten eggs
Paprika
2 tablespoons melted butter or fortified margarine
Speck pepper
Speck celery salt.

Freshen fish as manufacturer directs. Cook with potatoes in 2 cups boiling water, covered, until potatoes are tender. Drain well, mash thoroughly with a potato masher. Add remaining ingredients, except fat, and beat with masher or spoon until light and fluffy. Chill thoroughly—several hours if possible. Heat 1½ inches fat or salad oil in deep saucepan to 350 degrees F., or until 1 inch square of day-old bread browns in 20 seconds. Drop codfish mixture, in heaping tablespoonfuls, into fat and fry until golden brown. Drain on paper toweling. Makes 6 servings.

Baked Macaroni and Cheese

¾-1 lb. Process American Cheddar Cheese (about 1 cup)
¾ lb. raw macaroni (1 1/3 cups)
2 tablespoons butter or fortified margarine
1½ teaspoon flour
¼ teaspoon dry mustard
¼ teaspoon salt
¼ teaspoon pepper
½ teaspoon bottled thick meat sauce

1 cup milk
1 tablespoon minced onion.

Pre-heat oven to 350 F. Thoroughly fill base of double boiler with water, then bring to boil. Grate cheese into long shreds, using a medium or coarse grater set in bowl, or on a large piece of waxed paper. Cook macaroni until tender then drain according to manufacturer's directions; melt butter in top of double boiler, over boiling water. Stir in next 4 ingredients and cook until smooth. Slowly add meat sauce, milk and onion, stirring constantly. Cook, while stirring, until smooth and thickened. Place layer of drained macaroni in bottom of greased casserole. Cover with layer of white sauce, then layer of cheese. Repeat layers until all ingredients have been used, having cheese as top layer. Bake in moderately hot

oven of 375 F., 15-20 minutes, or until lightly browned. Makes 4 servings.

(Note)—Cheese may be topped with 1 cup buttered, soft bread crumbs before baking. Onion and meat sauce may be omitted.

Fish Mole

4½ cups soft bread crumbs
4½ teaspoons salt
2 teaspoons chili powder
1½ tablespoons finely chopped parsley
4½ tablespoons chopped onion
3 tablespoons chopped celery
2/3 cup melted butter or margarine
2 3¼-pound bass, bluefish or flounder

½ clove garlic
1½ tablespoons lemon juice.
Mix together bread crumbs, 2½ teaspoons of the salt, chili powder, parsley, onion, celery and 1/3 cup of the butter to make a stuffing. Wash fish and rub inside cavity and outside with garlic and remaining 2 teaspoons salt. Fill with the stuffing and fasten edges with tooth picks or skewers. Place fish in

baking dish (12x7½x2 inches) and sprinkle with lemon juice. Bake in a hot oven (450 degrees F.) about 30 minutes, or until fish is easily pierced with a fork, basting every 10 minutes with remaining 1/3 cup melted butter. Serve with Mexican Sauce. Makes 6 servings.

PENNA.'S INCOME IN '46 WAS HIGHEST EVER

Estimate of Bureau of Census Lists Income at \$12,437,000,000

SOURCES ARE LISTED

(Prepared for The Bristol Courier by the State Planning Board, Department of Commerce.)

Pennsylvania's income last year, according to an estimate of the Bureau of Census, was \$12,437,000,000—the highest figure ever recorded.

A study made by the State Planning Board, Department of Commerce, of the distribution of the wages and salaries earned in the various manufacturing industries of our State shows that in 1946 Pennsylvania workers were second in the Nation in their total earnings and first in their earnings from the manufacture of iron and steel and their products with 19.1% of the total National wages and salaries in that industry, the second state being Ohio. Pennsylvania workers are second in the Nation in their earnings from tobacco manufactures, being exceeded only by the State of North Carolina. They are first in their earnings from the production of stone, clay and glass products; second in the paper industry; third in textiles and the manufacture of the products of petroleum and coal, and in chemicals, and fourth in the manufacture of foods.

As compared with 1940 Pennsylvania's 1946 proportion of the total National wages and salaries has

risen in the following industries: tobacco, lumber, chemicals, petroleum and coal, rubber products, non-ferrous metals, and transportation equipment.

One of the most significant items in this list is Pennsylvania's rise in the chemical industry. The total wages and salaries paid out in this industry in our Commonwealth are still below those in New Jersey and New York. Yet it is a notable fact that between 1940 and 1946 Pennsylvania was the only one of the five largest producers in this field which increased its percentage of the National total of earnings.

Pennsylvania's percentage gained in its earnings from the products of

petroleum and coal was greater than that of California, the second state in that industry; and compares with a loss in percentage in the State of Texas. The salaries and wages of workers on rubber products climbed from ninth to sixth place between 1940 and 1946.

The increase in Pennsylvania's proportion of the National total of wages and salaries in several important lines of manufacture illustrates the increased diversification of its industries and the constant development of new employment opportunities in fields in which the State offers exceptional advantages for expansion in the future.

COST OF RAISING TURKEYS VERY HIGH

Wayne S. Bitting, Plumsteadville, Places It At 45c to 50c per Pound

LISTS DIFFICULTIES

Taking into consideration losses that may be suffered through mortality, labor, costs of the poults, interest and depreciation of the equipment and capital investment, the cost of raising a turkey, according to Wayne S. Bitting, Plumsteadville, former school teacher, who did some soldiering during World War II, and is now raising turkeys, ranges between 45 and 50 cents a pound. Mr. Bitting emphasizes there must be considered the extremely high cost of feed, which has increased in price about \$30 a ton since the beginning of the year.

Speaking of the high cost of feed, Mr. Bitting said some of the growers in Virginia, West Virginia, Maryland and the Carolinas are putting their birds on the market before they are fully matured. This, said Mr. Bitting, is done because the growers, some of whom in this area are doing the same thing, feel that it is better to get what they can for the birds, even though they are not mature, than to continue paying the high cost of feed.

Turkey production according to Mr. Bitting, who before the war was supervisor of vocational agriculture in the high schools at New Hope and Richboro, will be approximately 20 per cent less than last year. This, it was said, is mainly because of the high price of the feed, and the fact that the growers received a relatively low price for the birds last year.

Quality of the birds this year may not be as good as last year because many of the growers held off from starting their poults until late in May or early June instead of late April or early May, the usual time. This gives the birds less time in

which to mature and will mean they are not as meaty and will have more pin feathers. Weather conditions also were taken into consideration, and in this connection Mr. Bitting said wet and sultry weather is not conducive to the health of the birds. The past season has seen much of this type of weather.

In selecting a first quality product, the buyer, said Mr. Bitting, should look for a bird that has a well-rounded breast and one that is uniform in fatness over the en-

tire body. The bird should also be free of pin feathers, and the skin should be of a golden, yellow color. Birds that have a uniform fatness throughout the body, said Mr. Bitting, will not dry out while roasting.

In addition to raising turkeys, Mr. Bitting has found time to teach agriculture to ex-servicemen in the county. He has two classes, one at Buckingham and one at Newtown, with an enrollment of 27 veterans. Mr. Bitting spends four hours

weekly with them in the class room and spends an hour a week with them as he supervises their work on the farm.

Mystery of the Missing Farms

Yep, the number of farms in America is shrinking (by a quarter-million in the last five years!). What's happened to the missing farms? The land has been taken in by other farms, increasing the average size by twenty acres!

Does this growth mean farming's no longer a family enterprise? Just the opposite! More families own farms today than ever — only with labor-saving equipment they can handle more land, more work.

That's as it should be. The family farm is a fortress of democracy —

where our free, American life is secure. Where every member cooperates and shares the work... living together in temperance and tolerance — temperance that prefers a moderate beverage like beer, and tolerance for a taste that may be different from one's own.

From where I sit, our Family Farms (and they're 96% of all farms) are something that this country can be proud of!

At beautiful NATIONAL MEMORIAL SHRINE a particularly lovely tract has been set aside and dedicated as:

Soldiers' and Sailors' Memorial Garden

This action was taken after many inquiries were received from those who desire their hero dead returned from the fighting fronts where they fell, for burial close to home.

Burial in the Garden is specially priced and includes perpetual care, use of the most modern cemetery facilities, and installation of the bronze marker supplied by the Federal Government.

If you prefer, you may bury your war-lost loved one in your own family lot at NATIONAL MEMORIAL SHRINE and without charge, have his name included on a large bronze plaque to be set up in the Garden, assuring him the same honor and recognition as those interred there.

Faith Clarke's SHOPPING TIPS FOR BUDGETEERS

FAMILY UNITY is more certain in homes where holidays and anniversaries are celebrated with gusto. Halloween offers an opportunity for fine fun.

The Snellenburg Food Store (Chestnut St.) offers the appropriate goodies for the hilarious occasion. Do dressed-up children come begging to your door on Halloween? They do to mine. Snellenburgs have those hand-out spice and ginger cookies and candies. There are nuts in the shell, too, separate or mixed. You'll want raisins and sugared dried fruits for home consumption, luscious layer-cakes — they're all in this truly exceptional Food Shop. Why not shop early, be prepared? (1st fl.)

STORAGE SPACE in a kitchen increases a housewife's or cook's efficiency. For the first time at the low price of \$16.95 Snellenburgs offer a rosy metal kitchen base with a work enamel top that serves as a work space. The base consists of a large drawer and a big grocery or utensil compartment with a door. The whole is finished in gleaming white. The base is range height, measuring 36 ins. high, 24 deep, 20 wide. Housefurnishings Dept. (3rd fl.)

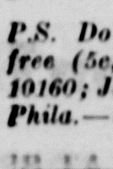

SUPERB TONE characterizes the newly amplified, already famous Cable Spinnet Pianos. See and try one in the Snellenburg Piano Dept. The new amplification adds rich depth to a piano that already has a reputation for unusual brilliance of tone. Cables are beautifully styled in mahogany or walnut veneered cases. Priced at \$585, Cables can be purchased in this store for only \$58.50 down, on a deferred payment plan, plus a small carrying charge. What a family Christmas gift! (5th fl.)

NEATER CLOSETS. The Snellenburg Notions Dept. has many suggestions for keeping clothes, closets neater and wearing apparel pristine fresh. Just now the Department is offering good looking shoe racks, of curved, maple-finished wood, with strong metal rods. These stand upon the floor, and will take about six pairs of women's shoes or four pairs of men's shoes. Priced at \$2.98 each, these racks make especially good buy-ahead Christmas gifts for dads and older brothers. Some all-metal shoe-racks of the floor type, in bright rose, blue, green, or black, are priced at \$1.69. These make nice mother, daughter or sister gifts. (1st fl.)

HIDING PHOTOGRAPHS in a drawer is no compliment to the originals, nor are shabby or cheap frames. Why not take the pictures of family or friends to the framing department of Snellenburgs? There you'll find readymade frames that harmonize with each photograph or you can have frames made to order. Beautiful readymades, in glass, wood, metal or leather, are priced at from \$1.29 to \$19.95. This department also specializes in the framing of diplomas, certificates, etc. (4th fl.)

MEN WILL APPROVE the good "Irvington" broadcloth pajamas — the Men's Furnishings Dept. at Snellenburgs is offering at only \$3.95. The excellent material has cluster stripes in maroon, gray, blue or brown. Furthermore, it is vat dyed and Sanforized. There is a choice of pajama styles — notch collared, middle type, etc. Sizes A, B, C, D. An excellent value. (1st fl.)

TRIPLETT WILL BE IN BACKFIELD FOR ABINGTON XI

"Johnny" Triplett, scholastic speed demon, will be in the backfield of the Abington High School team tomorrow night as it lines up against the Bristol High Bunnies in an arc light game on the local gridiron. This will be the only home night game for Bristol and a large crowd is expected. Opening kickoff will take place at 8:15 o'clock sharp.

Triplett last summer broke the P. L. A. record for the 100-yard dash but Bristol saw a little of him last season when he was making his start in the Abington backfield. Although he had an injured leg, Triplett paved the way for several Abington touchdowns as they beat Bristol, 38-0.

The Abington "human meteor" not only depends on his speed to get him past would-be tacklers but is also quite adept to hiping and swiveling away from players. The Negro star has already scored most of Abington's touchdowns this season.

In the three games it has played, Abington has scored a total of 76 points, beating Mastbaum and Haverford and losing to Lower Merion, 21-14.

The Bunnies are still seeking its first victory of the season, having dropped four straight games to Bordentown Manual, Trenton Cath-

olic, Pottstown, and Conshohocken. The Buns have scored but one touchdown in the four games.

Despite the four defeats, the spirit of the local team is high and it feels confident that it will be able to stop Triplett and his mates.

Coach Harry McClister used "Bill" Moll in the backfield in his practice sessions this week. Moll may be just the boy to give the Cardinal and Gray backfield the extra punch needed for scoring power. In the game against Conshohocken last week, Moll went in to play the last quarter and ripped off some huge gains for the short time he was in action. Moll did not report for the team early in the season because of an ankle injury but the Bristol Township lad now feels that he is ready for plenty of action.

Coach McClister will have Moll, Al Daniels, "Henny" Kornstedt, and

Alex Monte in his starting backfield while his forward wall will consist of: Ends, "Jim" Sottile and "Tom" Strong; tackles, "Mike" Pone and "Mickey" Iannucci; guards, "Buster" Monachello and "Bud" Pearson; and center, Joe Rago.

For his replacement backs, McClister has: "Whitey" Welker, Joe Natale, "Bill" DeRisi, Harry Speck, "Dick" Dillington, Bob Hutchinson, and Joe Sionne. The line substitutes are: "Hank" Killian, Marty Braam, "Vince" Genco, Jasper Favoroso, Dick Riedel, Joe Liberatore, Joe Gilardi, Allen Gleason, Joe Buck and Herbert Weida.
